1. HfEM Executive Summary for April 2022

Dear Donors, Partners and Beneficiaries,

HfEM is pleased to present this report to you showing a summary of the activities done in April 2022. We are also wish to thank our kind donors as well as our dedicated HfEM staff. Through your contributions and our staff's efforts HfEM has been able to positively impact a large number of people across our five projects in Uganda.

*Since the beginning of 2022, HfEM is managing five different projects in three different refugee settlements in Uganda as well as assisting Kampala Urban Refugees and others in different districts of Uganda, as HfEM is allowed to operate across the country. HfEM projects include: ***Evangelism and Church Planting, Church Leadership Empowerment, Financial Inclusion, Compassion for African Children and the Refugee Support Project.****

Evangelism and church planting are helping to bring back hope to vulnerable people by receiving salvation in their heart, and accepting Jesus Christ as their Lord and Savior.

ISOM (International School of Ministry out of the USA) is helping HfEM to deliver church leadership empowerment training. Within this project, we do seminars and conferences for different groups of church members.

In financial inclusion, we teach and train people the importance of having a saving culture, the wise use of money, and to some HfEM helps arrange start-up capital for businesses.

Compassion for African Children is HfEM's most important project. Through the project HfEM helps to support total orphans from one day up to five years. This month of April 2022 was not good for us because we lost two babies who died due to lack of adequate resources within the Nakivale refugee settlements. May the Lord help us to provide more care and support for those remaining ones.

In our Refugee Support Project, we have been supporting elderly persons especially widows, by giving them food, including mixed flour for porridge, and clothing.

We give thanks to everyone who contributed! It was your contributions that made our work possible this month.

4. Financial Report April 2022

5. Conclusion

To All Our Dear Donors from Europe, Canada and USA...

Dear Friends..., we truly appreciate your great commitment in caring and supporting vulnerable people: Total orphans, Elderly, Widows, and the Malnourished among others. Thank you for continuing to donate to save and promote the lives of vulnerable refugees in Uganda, even in this very critical period where everything has increased in price!!! One of our secrets which makes us unique, is our approach. “*Use the little we get and produce much results*”. This is what we are still doing within this very difficult period!

Unfortunately, two among our total orphan children passed away this April. The situation is especially critical in **refugee settlements** in Uganda. It is impossible to live on 13,000 UGX per person per month. **That is 12 US cents per day! Something urgently needs to be done!** We need more advocacy. Can you please advocate for us!!! Please tell your friends about us. Perhaps call your local television station. Why not tell your Pastor! Please contact any humanitarian agencies you may know to see if they can help. While we also need your prayers, we are asking each of you to see if there is something more you can do to assist us to help those most in need.

We appreciate UNHCR and OPM for hosting us and giving us 13,000 UGXs (\$3.64 US) per month per person. However - the amount is far less than is needed. We pray they are looking for more funds quickly – **otherwise people (80% of whom are women and children) in refugee settlements can be expected to begin dying of malnourishment!**

Finally, let me close by giving my thanks to HEM staff, and to beneficiaries for their commitment and their patience!

May God bless all of you, and keep you safe and well!
