WHAT DOES Hope for Eternity Ministry (HEM) DO?

- ❖ *Taking care of less than five years total orphans.*
- ❖ *Supporting education for vulnerable children.*
- ❖ *Counseling and supporting vulnerable people including elderly, widows, and people with disability, among others.*
- ❖ *Promoting of saving culture, credit cooperatives and financial literacy among vulnerable people and associations.*
- ❖ *Environmental protection through fruit trees plantation.*
- ❖ *Advocacy and support for refugees and vulnerable people.*
- ❖ *Church leadership empowerment through ISOM Bible Trainings, Seminars and Conferences.*
- ❖ *Evangelism and church planting*

MESSAGE FROM HEM EXECUTIVE DIRECTOR

Greetings from HEM, Hope for Eternity Ministry, Uganda!

I'm very excited to introduce to you this Annual Report 2020. It is focusing on different activities by HEM in Uganda in caring for vulnerable people, supporting them, and advocating for them so that they can have hope for better lives and a better household.

For this year 2020, we focused on vulnerable children less than five years old, vulnerable women, elderly persons and financial inclusion.

Although the year 2020 had many challenges caused by Covid-19, HEM did its very best to care for vulnerable people in Kyaka II and Nakivale settlements, and in Kampala by supporting them with food, health and sanitation materials, especially during the lockdown period.

It is important for me to recognize that OPM and UNHCR collaborated with us and guided our staff so our achievements could continue to be first-rate.

To all our partners, funders and people from around the world that continued to support our work, we are very grateful. Please continue to support us; please don't stop!

This annual report will show you our 2020 achievement in photos, and data, mainly in Kampala, Kyaka II Refugee Settlement, as well as in Nakivale and Kyangwale.

HEM strongly believes that refugees, when given opportunities, can solve their own problems relating especially to livelihoods.

On behalf of HEM, I thank you for taking your time to read this report. We will be waiting for your comments and reactions regarding this report and on what we do. Sincere apologies – English is not my first language.

May God bless you!

Pastor Bonaventure DUSABE

HEM Executive Director

www.hemafrika.org

INTRODUCTION AND ORGANIZATION

Why and How Hope for Eternity Ministry (HEM) Was Created

Seven years ago, Pastor Bonaventure Dusabumuremyi, and some friends, started Hope for Eternity Ministry (HEM), in Kampala, Uganda, to solve problems of vulnerability and mentality of refugees in particular as well as other vulnerable people in Uganda by caring, supporting, and advocating for them, while training them to unite and to be able to solve their problems themselves, after changing their mentality. We use the word mentality to mean their ways of thinking and their beliefs.

As Pastor Bonaventure was himself a refugee, he could see the problems facing refugees: The problems were many: getting not enough to eat, no education, HIV and Aids, sickness and disease, shelter, sanitation and clean drinking water, psychological and spiritual problems and other many!

In Uganda there are 1.4 million refugees, from many 31 countries. The numbers increase each year.

Refugees are amongst the most vulnerable people in the world! The majority of refugees have very little life sustenance. Many have nothing when they arrive. Most (75-80%) are women and children. Most have no family or few family members. Some have been here a long time.

HEM was established in Uganda on 12 May 2013 as a Christian and Charity Organization. It is a registered as a non-governmental organization (NGO) by the Uganda Government under **Reg. N°: IDN122056895NB** and **Permit N°: INDP11873895NB**. It is allowed to work countrywide. HEM also signed a Memorandum of Understanding with the Government of Uganda allowing it to operate in Uganda Refugee Settlements; focusing on Refugee Support and Humanitarian Actions, community development initiatives and leadership empowerment and evangelism

From its beginning, HEM has been guided, advised, advocated for and funded by Christian missionaries from western countries. HEM is partnering with International School of Ministry (ISOM) from USA in Bible Training and delivering Certificates, Diploma, and Bachelors' Degree to its students.

Hope for Eternity Ministry (HEM)

Our Vision: *“To be a Model Christian and Charity Organization”*

Our Mission: *“To seek and to save the lost, and to liberate the oppressed”*

(Luke 19:10)

Our Core Values: *“Hope - Excellence - Morality”*

HOPE: *No life without hope. Our major principle is to work with and build hope as the first step of life-change.*

EXCELLENCE: *Our ultimate goal is to meet excellence in our work and service delivery. We strive to uplift our beneficiaries to an excellent work and life.*

MORALITY: *We are guided by the principles of honesty and integrity in all our activities.*

Our Philosophy: *“Be Saved, Safe and Save”*

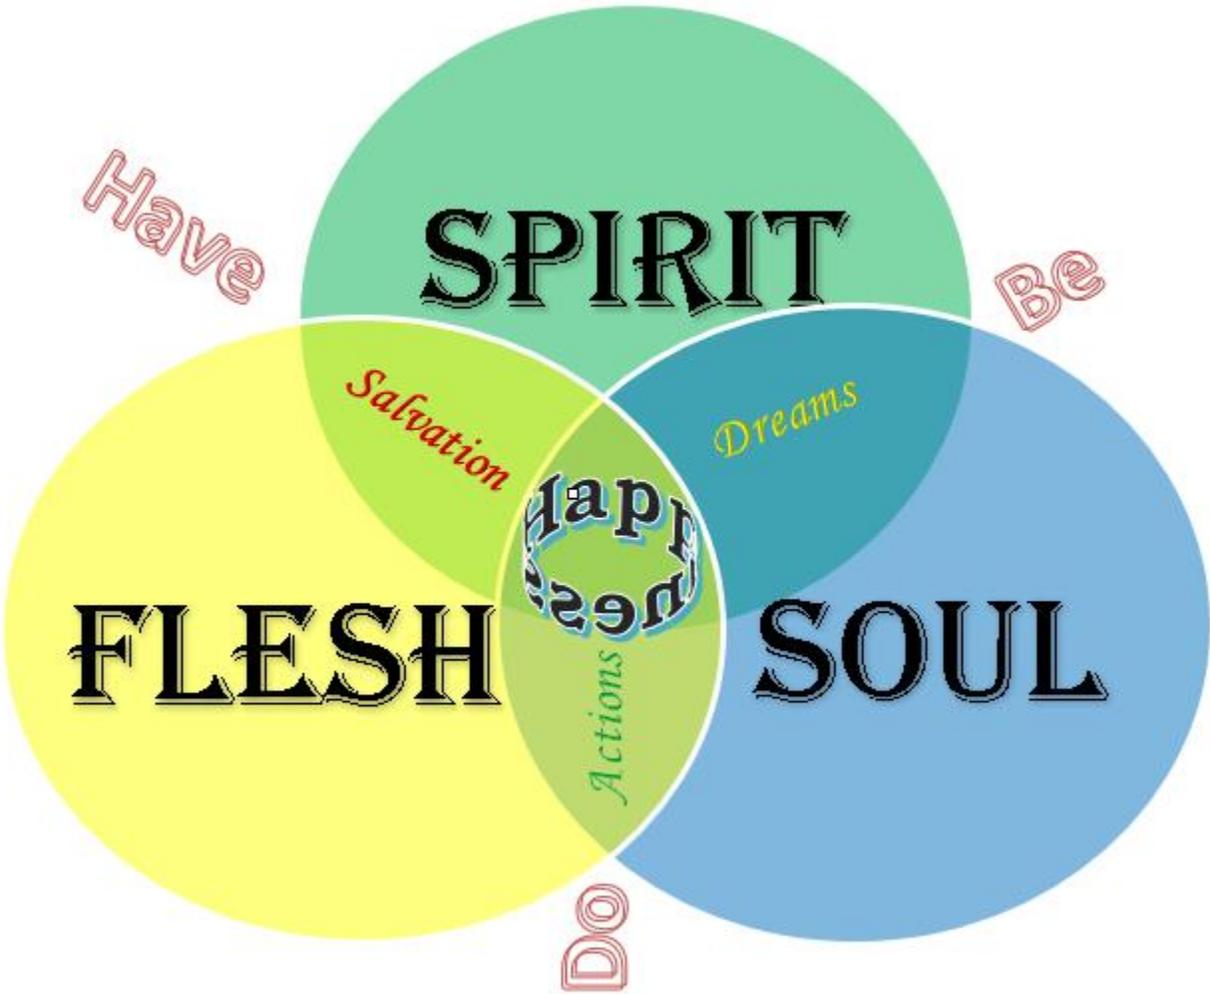

Our Motto: *“Key for Success”*

Our Strategic Goals:

- ✓ *To Care for and Assist Refugees and other Vulnerable,*
- ✓ *To Contribute to Safe and Sustainable Community,*
- ✓ *To Equip Pastors and Church Leaders with Leadership Skills,*
- ✓ *To Promote Evangelism and Church.*

Our Developmental Approach: “Caring for the ‘Whole Person’”

A serious mistake can sometimes be made by supporters and donors who wish to support one or two parts among the three parts of a person’s life, and then to expect success to occur! Success will not happen. The real success and lasting success will happen when the whole three parts are supported (The Flesh, the Soul and the Spirit). HEM saves vulnerable persons as a whole (*Flesh, Spirit and Soul*), and liberates the oppressed also as a whole, from the effects of *poverty (Flesh)*, *ignorance (Soul)* and *sin (Spirit)*. The diagram below shows the way a person can be supported to achieve a successful and happy life.

Board of Directors

HEM Board of Directors is composed of seven members: The Chairman, the Vice-Chairman, the Secretary, the Treasurer, advisor and two members. Among them, we have 3 women representing 42% and 4 males representing 58%. Five of HEM Board members have university qualifications and two are church leaders with secondary education level. All board members have at least five years of experience in leadership. Three Board members have experience in working with international NGOs. The HEM Board of Directors have done excellent work this year by coping with many problems caused by Covid-19 consequences. It was not easy for the Board of Director to sustain the continuity of HEM, but with their commitment, competence, integrity, dedication and effectiveness; they persisted and continued to sustain HEM through 2020, even until now! May God bless them.

Executive Committee

This committee is composed with three persons: Executive Director, General Secretary and General Treasurer played a significant role of HEM organization especially the year 2020, where Covid-19 disturbed the entire world! When everyone was busy trying to protect themselves, this committee was also protecting the organization's staff, even beneficiaries by providing for the urgent needs for life and for protection. Led by the Executive Director this team collaborated closely with the fundraising team from Canada so the total baby orphans in Kyaka II Refugee settlement could be protected and supported. Everything was very well done in each area, fundraising, development program, human resource management and in accounting. May God bless you.

Management and Staff

During 2020, HEM has been operating with 16 staffs (6 at headquarters, 2 at Kampala field office, 4 at Kyaka II field Office, 3 at Nakivale field Office and 1 in Kyangwale field Office). HEM also has a volunteer Canadian technical advisor who has visited and advised over the past five years and who works hand in hand with the management team. Our management and staff team are shown below. We thank all staff for their dedication and commitment to HEM, and to all of those we serve.

Hope for Eternity Ministry Team Members

HEM is a committed, competent, credible and distinctive organization able to meet its mission, vision, mission and goals. It has succeeded in bringing back hope for eternity to thousands of vulnerable people mostly orphans, the elderly, women, and the youth since 2013.

HEM ACHIEVEMENTS IN 2020

Covid-19 Pandemic and the Rise in Poverty

In Uganda, the people most affected by poverty are the ones affected most by global Covid-19 pandemic. These are orphans, children, handicapped, women, widows and older people. These categories of people need financial capacity building so they can make positive changes for their families, and for the whole country in general so Uganda can persist in fighting Covid-19 challenges. Among these poor people, a big number are church members (pastors, church leaders) some of whom mistakenly believe God can make miracles without any of their efforts. Therefore, HEM strategically focused on developing pastors and church leaders even before Covid-19. Pastors and church leaders play a significant role changing people's mentality once they are trained and equipped in Bible literacy, financial literacy, and counseling.

During 2020 there was a significant increase in poverty across rural Ugandan refugee settlements, as well as for many urban refugees in larger centers. Remember that Uganda is hosting 1,423,740 refugees (women and children represent 82%) making it the country with the highest number of refugees in Africa, and the 3rd largest in the world. Before March 2020 a refugee received an allowance of 31,000 USH per month, which is equal to \$8.40 US per month or 28 cents per day per person. In March this was reduced to 22,000 USH, or roughly 20 cents per person per day. This amount is not only for food, but also for all necessities such as clothing, sanitation, and transport. This reduction in support during Covid-19 period aggravated the level of poverty among refugees and was led to miserable living conditions and deaths.

Total refugee orphans, unaccompanied and separated children were the most vulnerable persons in refugee settlements in Uganda during that period of Covid-19 in 2020. The increase in the number of vulnerable persons in Uganda and in refugee settlements was a serious problem for HEM. We give thanks to HEM staff, donors, partners and all stakeholders for their intervention to improve and save the lives of the above oppressed and helpless persons during the year 2020.

Achievement Highlights

During 2020 HEM strategically focused its efforts in the following important areas:

- Church leadership capacity building in Bible and Professional Counseling (23 pastors and church leaders graduated with ISOM Bible School),
- Promoted saving culture and improvement of people's livelihoods through the promotion of SACCOS (savings and credit co-operatives), income generating activities (handicrafts, tailoring, agriculture, apiculture), and financial literacy,
- Cared for less than five years total orphans (a total of 277 total orphans were reached among many who received support once or few times a year),
- Supporting primary education (more than 31 pupils have been given school fees for first term and scholastic materials),
- Improved the lives of vulnerable persons such as widows, elderly and disabled persons (one house rehabilitated),
- Environmental protection and promotion of nutrition and health through fruit trees planted
- Constructed a church building and its offices in Kyaka II Refugee settlement.
- Extended contacts and activities in Kyangwale Refugees Settlements.
- Started more fundraising in USA and Canada via our updated website, and in partnership with Bridges of Hope International Network of Development Agencies, Inc. We plan to extend fundraising efforts in Africa and other western countries in the near future.

Achievements in Kampala

In Kampala, HEM is working with Urban Refugees and Ugandans in financial inclusion (SACCOs), aid relief, financial literacy, professional counselling studies, handicrafts and tailoring, church leadership empowerment, French language classes, and evangelism.

Professional Counselling Studies

Due to many problems faced by refugees from the countries where they came from. So special counselling is badly needed to help refugees gain back hope in their lives. Therefore, HEM decided to train trainers especially Pastors, Church Leaders, and Community Leaders so they became able to give counselling services to their members.

The photos below, shows the work done this year in the HEM School of Counselling.

French Language Education

Teaching is done at HEM headquarters, especially for youth. We are also teaching English to refugees and migrants to facilitate their communication especially in business.

Financial Literacy Training

The twenty years I spent at school learning different courses; no one taught me about money! Even my parents didn't teach me about money! I had been struggling myself to know about money! I asked others if they have been taught about money and they said there was nothing available! Therefore we decided to prepare the financial literacy courses to teach people about money: What is it, how to gain it, how to spend it wisely, how money makes money, how money can produce durable happiness, and so on.

HEM Financial Literacy has been very useful to many refugees either in Kampala or Refugee settlements are now able to improve their living conditions.

- ❖ Most people don't know how to think about how they can produce a better life for themselves!
- ❖ Many people have many opportunities - but they don't know how to use them!
- ❖ Our aim is to teach and train people the wise use of our opportunities.

Recycling Charcoal Training for Saving Money

From the residues of charcoal, HEM trains women and young girls who are poor, how to produce soil bricks for use in cooking. This saves money by not buying additional charcoal.

This above is a real-life example of teaching how to make wise use of their opportunities.

HEM has been teaching and training people in the wise use of their opportunities in 2020.

Many people have opportunities. However, they do not know how to use them effectively.

Through financial literacy training, individuals can learn how to use their opportunities.

One ladder was enough to help him see what he wanted to see. But, he used a lot of energy and time to bring a huge number of ladders and failed.

Many people are like this man; they have all opportunities but they don't know how to use them to reach where they want to go or to be!

Kasese Youth in Bible and Financial Literacy

2.2.3.3. Financial Principles for Wealth

Evangelism and Church Planting

The human being is made of three parts: Flesh, Spirit and Soul. All these parts need to be completely supported. If one of the three suffer; all the two suffer too. To have food (flesh) and knowledge (soul) in abundances doesn't mean that you are okay! It requires the Spirit to be supported to meet the whole development of an individual so that the whole human being may become fully happy and have the total wellbeing.

Evangelism is the way of bringing back hope to people spiritually, and that is the reason HEM evangelizes to make well the spirit, support the flesh and develop the soul by teachings.

HOPE FOR ETERNITY MINISTRY

HEM Calls for Emergency Donation on the occasion of
International Refugee Day: 20 June 2020

Voice of refugees

Voice of vulnerable

Donate 10\$ to save the life of less than 5 year total orphan baby in refugee settlements in Uganda

Donate 20\$ to contribute to the successful aging of elderly in refugee settlements in Uganda

Donate 40\$ to help a widow refugee in Uganda settlements to start a family business and feed her orphans.

Donate 50\$ to change the life of a handicapped in refugee settlements in Uganda

Those who help the poor succeed will get many blessings. The Lord will save, protect, heal and strengthen them well. (Psalm 41: 1-3)

Donate on the account below:

HOPE FOR ETERNITY MINISTRY

HEM's Celebration of International Refugee Day: 20 /6/ 2020

The celebration took place in Kampala: posho distribution to 12 families at Bukasa and food sharing.

*Thank you for your support
Blessings*

The celebration also took place in Kyaka II & Nakivale refugees' settlements: sharing food and distribution of home utensils.

Shocking story: "I thank HEM to eat meat once a year this International Refugee Day"

HEM USES LITTLE FUND TO PRODUCE MUCH RESULTS

In 2020 HEM Organized a Study Tour to Mama Maria at Vision for Africa and at Doctor Ron's

Achievements in Kyaka II Refugee Settlement

Care for Refugee Total Orphans

HEM has been working from Kyaka II Refugee Settlement since 2019, focussing on children, total orphans who are less than five years old, widows, elderly and church leaders. We look for caregivers who we then train, counsel and we support. HEM feeds the total orphans with milk (powder milk or cow milk), according to their age; we feed them with porridge, give them clothes, soaps, Vaseline, pampers, health and sanitation care, food and medicine.

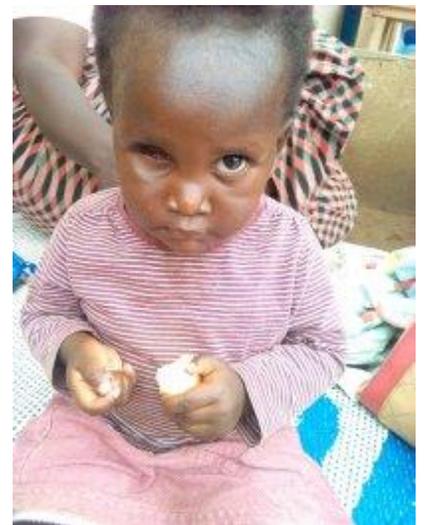

The following photos show highlights of what we achieved in 2020 when things were very difficult because of the coronavirus!

HEM staff caring for total orphan in Kyaka II

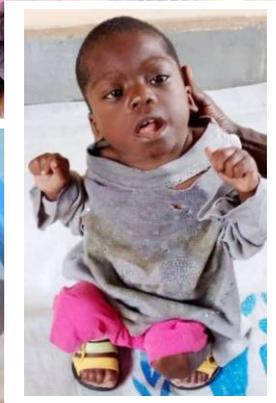

These are total orphans. We have been supporting with food, care, health sanitation, clothing and other materials.

Children with Special Care Needs

Please support, and encourage others to donate for total orphans on our website!

HEM Provides special food and special care for sick and malnourished children.

HEM encourages self-sufficiency by planting and growing vegetables for sale and for consumption.

HEM Handicrafts and Tailoring

Women are making masks for fellow refugees to help prevent the spread of the coronavirus.

Multiple Supports for Vulnerable People

During the most active Coronavirus period HEM provided food and other support to vulnerable people in Kyaka II Refugee Settlement.

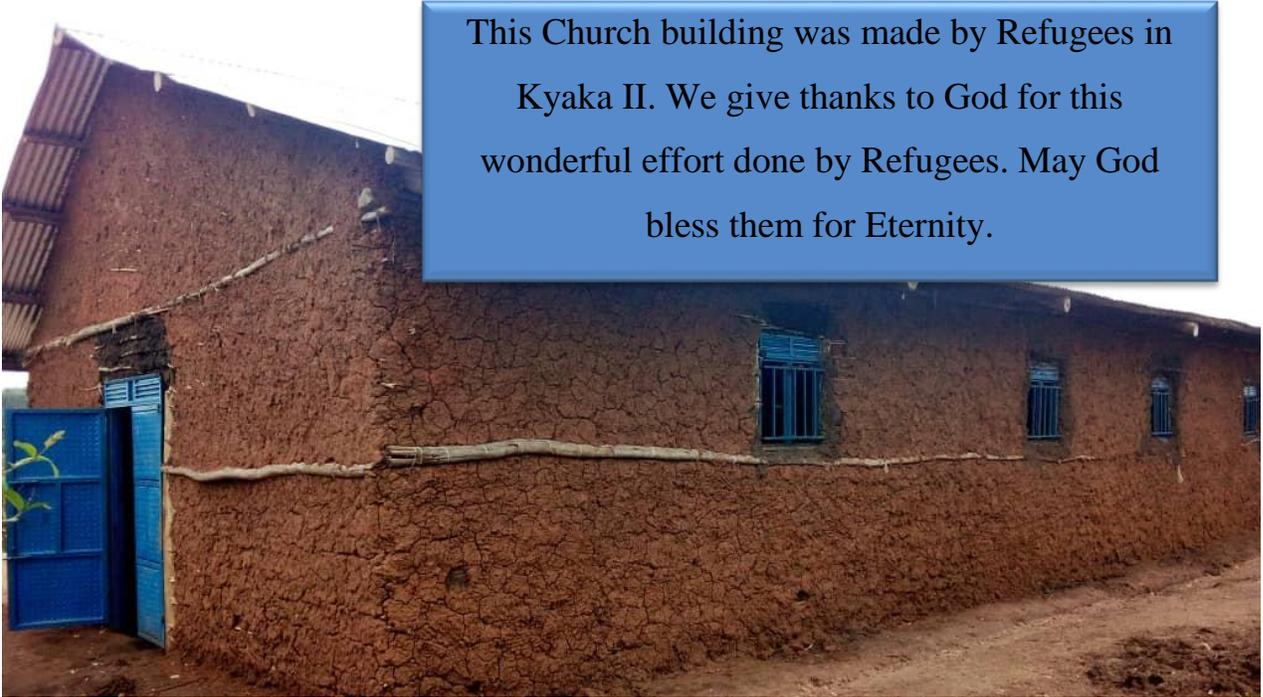

Leadership Empowerment

Leadership Empowerment was accomplished through prayers, seminars, and Bible School (ISOM).

Evangelism and Church Planting

This Church building was made by Refugees in Kyaka II. We give thanks to God for this wonderful effort done by Refugees. May God bless them for Eternity.

Evangelism and church planting is the main way of getting peace for Eternity. We preach, teach, and train people to have a good relationship with God.

Environmental Protection

HEM is also aiming at environmental protection but at the same time producing fruits to fight against malnutrition and hunger. This is the reason we are focusing on fruits trees preparation and planting. The following photos show a little among much that we have grown in 2020.

Achievements in Nakivale Refugee Settlement

Children Care and Support

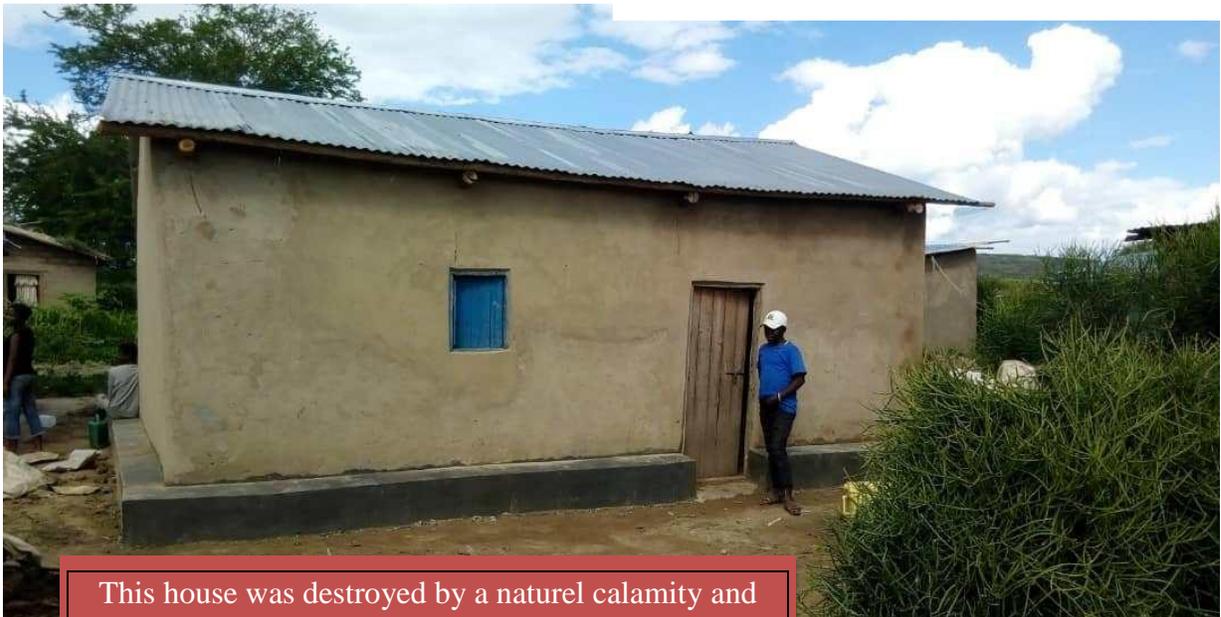

HEM cared for and support 50 baby orphans in Nakivale Refugee Settlement. They are in two categories: Total orphans, and Partial orphans.

HEM Handicrafts and Tailoring in Nakivale Refugee Settlement

Handicrafts and tailoring are tools for financial inclusion for women. The training gives technical knowledge so when their products sell, they earn money for themselves. The money earned is used for family well-being and they put aside an amount to save in HEM SACCO for future needs.

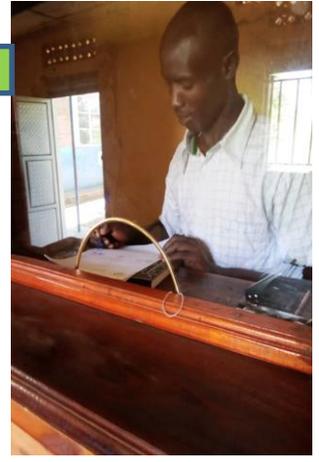

This house was destroyed by a naturel calamity and HEM rehabilitated it for a young refugee.

HEM SACCO provides micro-loans to many!

HEM supported a handicapped youth in a business start-up, a loan from HEM SACCO to do farming business, and support to promote environmental protection in Nakivale Refugee Settlement.

Achievements in Kyangwale Refugee Settlement

Children's Care and Support

Children, especially total orphans were given milk and porridge.

Vulnerable Women Supported (Widow and Elderly)

Woman were also given a small supply of soap.

Support for Handicapped Persons

Achievements in Masanafu, Kampala District

Financial Inclusion Through SACCO and Handicrafts

Women's handicrafts and SACCO services were very useful for financial inclusion and poverty reduction in 2020.

MESSAGE TO OUR DONORS AND SUPPORTERS

HEM does not have many donors or supporters, but whatever we receive from them, we use it wisely as our principle says: “To use little and produce much results”. We believe in the power of sowing with a small seed something which becomes very big in future.

The following are just a few photos of HEM leaders and staff reporting for 2020 and planning for 2021, and at the same time they receiving organizational training. This was done at HEM headquarter in Kampala.

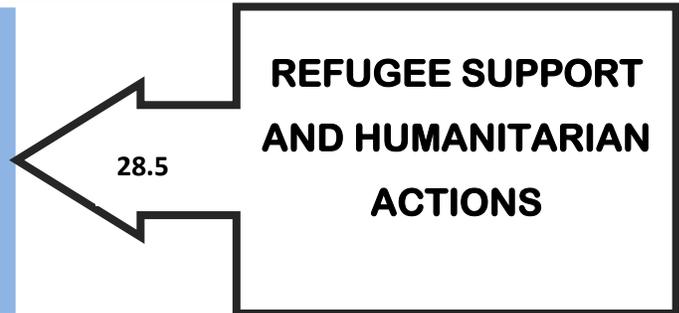

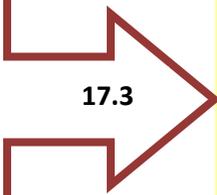

Our achievements are the results of our prayers, from working hard and smart, from the unity among leaders, and from the good advice and support we have been given from different people, and from caring supporters everywhere.

SPENDING FOR PROGRAMS AND ACTIVITIES BY FOCUS AREA

S/N	Activity	Budget allocation (%)
1	Assistance to less than five years total orphans	23.5

HEM BUDGET FOR 2021

HEM BUDGET FOR INCOME (82,210 US \$)

HEM BUDGET FOR EXPENSES 2021

CHALLENGES WERE MANY – THEY ALL WERE OVERCOME

The following are some of the challenges HEM faced during 2020:

- ❖ Covid-19 pandemic hindered most of the activities, as in the HEM strategic plan for the year 2020 (lockdown, working from home, curfew, etc).
- ❖ Language barrier between refugees themselves (they are from different countries), and even communicating with the host community (Uganda) was another challenge faced.
- ❖ Availability of minimum funds to support all the needs of vulnerable refugees.
- ❖ Lack of organizational transportation to facilitate easy movement in extending services to the communities.

CONCLUSION

Friends, the coronavirus created many difficulties for us during 2020. Nevertheless, we succeed in spite of the virus and its consequences. As one can see from our focus and our activities, we have made a significant and meaningful impact on the lives of refugees as well as Ugandan nationals within the country. A great many persons were supported, advocated for, empowered and equipped with skills leading them to financial inclusion, and to family wellbeing.

It is my great privilege on behalf of HEM to extend sincere thanks and gratitude - to all our donors, partners, and all stakeholders, as well as our staff, and the beneficiaries who together helped HEM achieve its goals in 2020.

We intend to do even more and do even better in 2021 with everyone's continued support, prayers and collaboration.

May God bless you.

Pastor BONAVENTURE DUSABUMUREMYI
