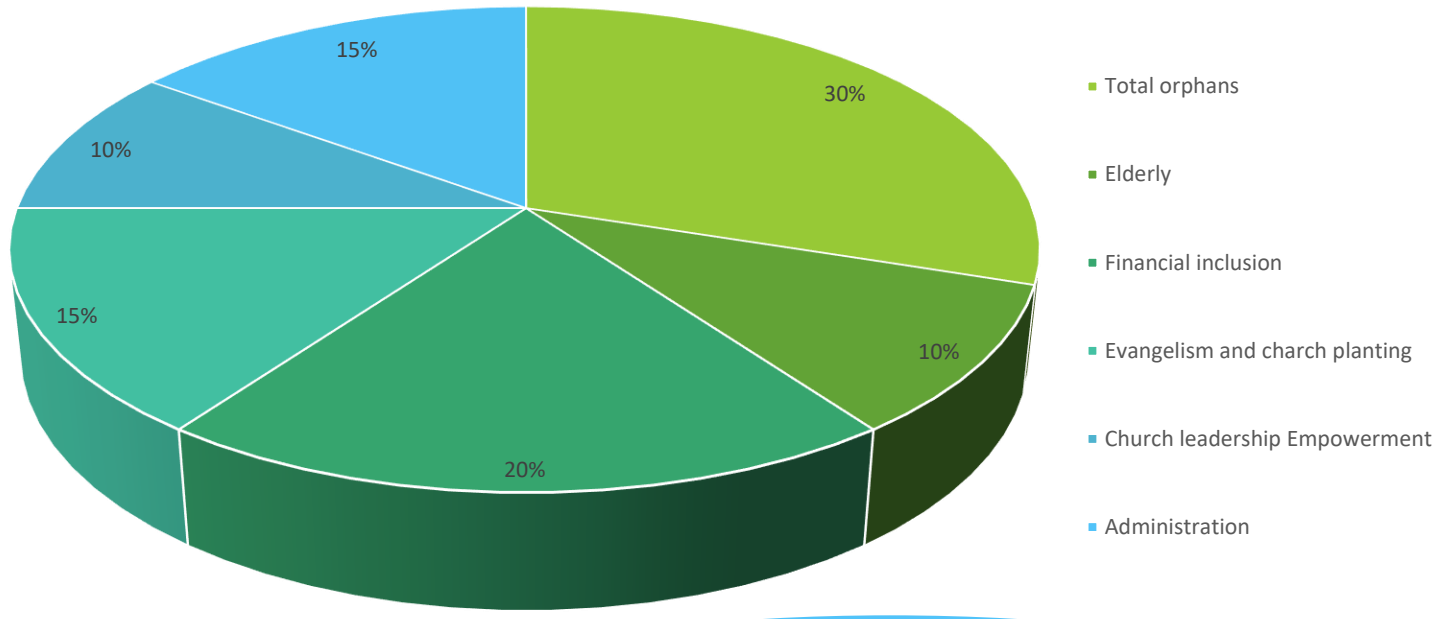
HEM FINANCIAL REPORT NOVEMBER 2022



Dear donors, we appreciate you so much for your commitment and financial contribution to achieve our goals during this month of November 2022

" The strongest people make time to help others, even if they are struggling with their own problems"

CONCLUSION

Uganda hosts one of the largest refugee populations in the world. Recently, because of war in the neighboring Democratic Republic of Congo there has been a significant inflow of people who are fleeing the war and related killings. This is hurting the Ugandan economy. Every day an increasing number of refugees and Ugandans alike are facing extreme poverty. Prices for food and other essentials are now very high. As a result, an ever-increasing number of refugees, especially women, and children including orphans, are facing illness and death!

HEM is working hard to address this problem. We have started to focus on business startup for caregivers, so that they can be able to feed their family members. We also continue to provide counselling, and support to those who are most vulnerable. We have been training church leaders so they can return to their communities and then train their church members.

This is why we continue to call upon everyone to support HEM so that we can support more vulnerable refugees. Please connect us, and advocate for refugees!!!

We give thanks to all of you who contributed to HEM's achievements during November 2022.

May God bless you abundantly!

Pastor Bony Dusabe
HEM Executive Director
